Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the World Land Trust – US, D/B/A Rainforest Trust as of December 31, 2012, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

<u>Estimates</u> - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

<u>Functional expenses</u> – The organization accounts for its expenses on a functional basis. Functional expenses include certain allocated overhead costs (rent, telephone, etc.)

<u>Fair Value of Financial Instruments</u> – The financial instruments of the organization are reported on the statement of financial position at market or fair values, or at a carrying amounts that approximate fair values because of the short maturity of the instruments. NOTE 7 - FAIR VALUE MEASUREMENTS

The organization follows FASB ASC 820-10 for financial assets (and liabilities) measured on a recurring basis, as amended. FASB ASC 820-10 clarifies fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. FASB ASC 820-10 emphasizes that fair value is a market based measurement, not an entity-specific measurement and, therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, FASB ASC 820-10 established a fair value hierarchy based upon the transparency of the inputs to the valuation of an asset or liability. These inputs may be observable, whereby the market participant assumptions are developed based on market data obtained from independent sources, and unobservable, whereby assumptions about market participant assumptions are developed by the reporting entity based on the best information available in the circumstances. The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 – inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities accessible at the measurement date.

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset and liability, either directly or indirectly, through corroboration with observable market data (market corroborated inputs).

Level 3 – unobservable inputs for the asset or liability including inputs that reflect the reporting entity's own assumptions in determining the fair value measurements.

The following table summarizes the Organization's assets (and liabilities) measured at fair value on a recurring basis as of December 31, 2012:

Assets Measured at Fair Value

Description	12/31/12	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)		
Recurring Basis						
Money Market Stock	\$151,270 10,643	\$151,270 10,643	\$ - 	\$ - 		
	\$161,913	\$161,913	\$ -	\$ -		

NOTE 8 - INCOME TAXES

The organization is exempt from income taxes under Internal Revenue Code 501 (c) (3) and applicable DC statutes. No provision for income taxes is required at December 31, 2012, as the Organization had no net unrelated business income.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

The organization follows FASB ASC 740 Income Taxes the authoritative guidance relating to accounting for uncertainty in income taxes. These provisions provide consistent guidance for the accounting for uncertainty in income taxes recognized in an entity's financial statements and prescribe a threshold of "more likely than not" for recognition and derecognition of tax positions taken or expected to be taken in a tax return. The Organization performed an evaluation of uncertain tax positions for the year ended December 31, 2012, and determined that there were no matters that would require recognition in the financial statements or which may have any affect on its tax-exempt status. As of December 31, 2012, the statute of limitations for tax years 2009 through 2011 remains open with federal and state authorities.

NOTE 9 - SUBSEQUENT EVENTS

The organization's management has evaluated subsequent events through November 12, 2013 the date of the financial statements were available to be issued. There were no subsequent events identified through November 12, 2013 which were required to be disclosed in these financial statements.
